25X1A

Dear

25X1A

Thank you for your letter of 8 July 1959 requesting a quotation for work to be performed on the Mark IIIA Camera System. The price to perform this work is as listed below:

Item 1. Design, develop, and fabricate TWO (2) junction boxes to permit operation of Mark IIIA Camera System with the [REDACTED] flashing unit together with the necessary cables.

25X1A

25X1A

Price -

Item 2. Re-focus FOUR (4) Mark IIIA camera lenses to conform with spectral output of the [REDACTED] lamps.

25X1A

Price -

Item 3. Calibrate FOUR (4) magazines and TWO (2) Mark IIIA camera control systems with respect to IMC.

Price -

Total Price -

The prices quoted are based upon a CPFF type contract and are in accordance with the cost breakdowns attached. Our terms are net 30 days,

25X1A

The above task can be completed six or seven months after receipt of GFP. This delivery is also contingent upon any possible repairs required to the GFP and would be extended accordingly to the time required for such repairs.

The following GFP will be required:

FOUR (4) CAX-12 3" cameras with magazines and lens box.

TWO (2) Mark IIIA camera control systems (consisting of master controls and control consoles), and ONE (1) [REDACTED] flasher unit.

25X1A

Camera stabilize mounts and aircraft cables will not be required as GFP.

There will be no environmental testing performed on the project, however, the units will be performance tested.

Drawings to be furnished will be to good commercial standards utilizing sketches and layouts wherever possible. Engineering type manuals will be supplied for Item #1. Lens calibration data will be supplied for Item #2.

7/23/59

Upon receipt of the GFP consisting of 2 systems and 4 cameras, we will inspect the equipment for any necessary repairs required. We would then advise you of the repairs required and the price and delivery for such repairs. You will also have the alternative of supplying the repair material from your spares stock.

I trust that the above quotation is adequate for your requirements at this time, and thank you for the opportunity of quoting same. Please contact the undersigned for any questions that may arise.

25X1A

Very truly yours,

25X1A
